Saoula, Algiers, Algeria

Full-stack developer with a foundation in mathematics, cryptography and logic. I build complete web products, from the database schema to the deployed application: business platforms, corporate websites and WordPress sites delivered at scale. Self-taught, independent and available for freelance work.

10k+	**50+**	**Master**

SELECTED PROJECTS

GestOrg

Case study

Management platform for a national architectural association

- Designed and built the platform end to end for 10,000+ members: database schema, REST API, admin dashboard and PDF pipeline.
- Automated member validation, dues tracking and late-payment penalties, calculated on the server from a single source of truth.
- Generated official receipts, financial statements and diplomas from customizable templates, each with a QR code.
- Enforced role-based permissions in the API itself, not just in the interface.

React · NestJS · PostgreSQL · Prisma · Redis · Puppeteer · Tailwind

MBS Solutions

mbsgroupe.net · Case study

Bilingual corporate website

- Designed and developed a French/English website for an IT engineering company: UI, translation system and animations.
- Built the contact form backend as a server-side API route, keeping SMTP credentials out of the browser.

Next.js · React · Tailwind · Framer Motion · Nodemailer

50+ CLOA websites

Case study

WordPress for Algeria's order of architects

- Delivered official websites for the local councils (CLOA) of the national order of architects (CNOA).
- Turned setup into a repeatable process, keeping structure and quality consistent across every site.

WordPress · PHP · MySQL · Responsive

ALSO BUILT

E-commerce app (React, Tailwind) · Multilingual portfolio (React, Tailwind, Vercel) · Travel agency landing page (HTML, CSS, JavaScript)

SKILLS

Frontend
HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Framer Motion, Sass, Bootstrap, Responsive design

Backend & APIs
Node.js, NestJS, Express.js, JWT Auth, Swagger, Puppeteer, WordPress, PHP

Databases & ORMs
PostgreSQL, Prisma, MongoDB, MySQL, Redis

DevOps & Cloud
Docker, GitHub Actions, Linux, Nginx, Vercel

Tools & Version Control
Git, GitHub, Postman

EDUCATION

Master's in Algebra, Coding & Combinatorics
USTHB · 2020

Bachelor's in Cryptography
USTHB · 2018

Baccalaureate, Mathematics
Lycée Mouhamed Boudief · 2015

EARLIER EXPERIENCE

Wood Picker
Stock Manager · 2022 – 2024

Immar Interactive
Quality Manager · 2021 – 2022

LANGUAGES

English, French, Arabic (fluent)
Turkish
